F1RSTAnalytics

**Quality Measures
Dashboard**

A person in a white lab coat is pointing at a computer monitor. The monitor displays a dashboard with a table of data, including columns for various metrics and rows for different providers or facilities. The dashboard is titled 'FIRSTClient' and 'QUALITY MEASURES DASHBOARD'.

How Well Does Your Practice Measure Up When It Comes To Quality?

ABC's powerful, intuitive *F1RSTAnalytics* Quality Measures Dashboard helps you quickly understand how well your practice is performing.

Although anesthesia has very impressive morbidity and mortality statistics, there is always room for improvement to enhance the patient's overall surgical or obstetrical experience. Does your practice participate in a quality initiative such as the ASA-affiliated Anesthesia Quality Institute (AQI) PQRS or the newer Qualified Clinical Data Registry (QCDR) quality measures programs sponsored by CMS? If so, then you'll want to track your efforts using the Quality Measures Dashboard. At a glance you can see your performance either on a year-to-date or month-to-month basis for one or more measures, providers, facilities or areas for both process compliance and for good clinical practice.

ANESTHESIA BUSINESS CONSULTANTS

F1RSTAnalytics Quality Measures Dashboard – Measures by Provider for All Providers Month to Month Comparisons for Process Compliance Achievement
